

Postloc®

Post Setting Expanding Foam

The original foam backfill is the fastest and strongest for setting posts of all types.

Postloc® is an innovative building material that has been designed to be more convenient than bags of concrete, yet maintain similar properties of strength and performance.

Postloc is a commercial grade product specifically designed to save your most valuable asset – time. Setting up in 15 minutes or less, Postloc allows you to move to the next stage of your project sooner.

Advantages
